

OHAMADIKE EMMANUEL CHIDERA

SOFTWARE DEVELOPER AI QUALITY ANALYST | DATA ANNOTATOR | PROMPT ENGINEER

Abidjan, Côte d'Ivoire | +2250701261040/ +233554589852 | ohamadikee98@gmail.com

CORE SKILLS & COMPETENCIES

- **Language:** Python, SQL, JavaScript
- **Frameworks & Concepts:** Natural Language Processing (NLP), Sentiment Analysis, Text Classification, Prompt Engineering, LLM Evaluation, Multi-turn Conversation Analysis
- **Tools:** ChatGPT / LLM Interfaces, Git, GitHub, Postman, VS Code, Microsoft Office Suite (Excel, Word), Streamlit (basic)
- **Platforms:** Linux Environment, Web-based AI Tools, Cloud Platforms (basic AWS/Heroku familiarity), Remote Work Systems
- **Soft Skills:** Analytical Thinking, Attention to Detail, Strong Written Communication, Critical Reasoning, Problem-Solving, Time Management, Adaptability
- **Professional Expertise:** AI Response Evaluation (accuracy, relevance, coherence, helpfulness), Prompt Design & Testing, Data Annotation & Text Labeling, Comparative Analysis of AI Outputs, Content Evaluation & Quality Assurance, Research & Documentation, Prompt Engineering & LLM Evaluation, AI Response Analysis (Accuracy, Relevance, Helpfulness), Multi-turn Conversation Testing • Data Annotation & Text Classification, Natural Language Processing (NLP) • Analytical Thinking & Attention to Detail, Strong Written & Verbal Communication, Remote Work & Time Management

AI & LLM EXPERIENCE

- Designed and tested prompts to evaluate AI response quality
- Compared outputs for accuracy, coherence, and contextual relevance
- Simulated real-world conversations to assess consistency and personalization
- Applied structured reasoning to evaluate model performance

PROFESSIONAL EXPERIENCE

Teaching Assistant | Catholic University of Ghana

Jan 2023 - Oct 2024

- Assisted instructors with student assessments, class planning, and academic material organization.
- Streamlined academic documentation processes, enhancing course efficiency.
- Mentored students in the completion of assignments and research projects.
- Facilitated scholarly discussions and provided guidance on technical subjects.
- Carried out research and assisted with project development, scheduling, and documentation.

Field Agent | CJ Grand Group

Jan 2024 – Present

- Joined initially part-time while completing degree; transitioned to full-time in Jan 2025.
- Managed customer currency exchange transactions with high accuracy.
- Assisted clients in purchasing vehicles and real estate, providing clear guidance.
- Handled daily client interactions and ensured professional relationship management.
- Prepared detailed end-of-day operational and financial reports.
- Strengthened attention to detail, financial accuracy, and communication skills.

PROJECTS

- Developed a predictive model leveraging sentiment analysis of social media comments to forecast election outcomes.
- **Date:** Jan 2024 - Present
- **Technologies:** Python, MySQL
- Built NLP system for sentiment classification.
- Evaluated outputs for accuracy and contextual relevance.
- Annotated and validated datasets for performance improvement.
- **Published on GitHub:** [Sentiment Analysis-Based Election Prediction System](#)
- Team-Based App Development (Work-in-Progress)

EDUCATION

Bachelor of Science in Computer Science

Jan 2020- Oct 2024

Catholic University of Ghana, Fiapre

- Relevant Coursework in IT Service Management, Database Design, Systems Analysis.

ADDITIONAL INFORMATION

- **Languages:** English, French.
- **Interests & Hobbies:** Exploring advancements in IT infrastructure and data science, Volunteering in tech education initiatives, Learning new programming languages and frameworks.
